

ENVIRONMENT

POLICY STATEMENT

Policy Statement:

Rev 6

Issue Date:

10/01/2017

Signed:

EAMONN LAVERTY

Managing Director

McAlee & Rushe is a professional and environmentally conscious organisation, which acknowledges the impact that our operations have on the environment. This policy supports our Sustainability policy and relates to our responsibility towards the Environment. We are committed to reducing our environmental impact and preventing pollution from our activities and we will implement the following:

- Consider Environmental and Sustainability matters during the design process
- Monitor and reduce the amount of waste generated on our Construction sites and in our offices. We acknowledge the Environmental and financial gains from reducing, reusing and recycling our waste.
- Monitor and reduce carbon emissions arising from our offices, sites and transport
- Monitor and minimise water consumption at Head Office and on our Construction sites, with the aim to reuse water wherever possible.
- Control of all water discharges from our site
- Ensure the correct storage and management of fuel
- We will seek to review our emergency procedures to ensure pollution prevention
- Promote the use of Sustainable materials, especially timber, through the adoption of our responsible sourcing policy
- Consider the effects that our operations may have on the local community.
- We will work with our supplychain to improve their Environmental performance

We are committed to ensuring we meet the requirements of EN ISO 14001. We will set and regularly review environmental objectives and targets to ensure that we continually improve our environmental performance.

We will comply with all local environmental legislation and other requirements for all our operations.

We will ensure that we are aware of current construction environmental best practice through our industry body memberships.

This policy and our associated procedures will be communicated to our staff and sub contractors through our ongoing training programmes.
